

Autumn is a cool breeze,
Which really does make you freeze,
Autumn leaves weave from the colourful
trees,

Bonfire night is bright and sometimes
gives you a fright,

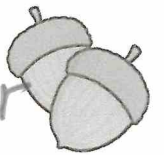

BOOM!

Fireworks fill the sky,
Flocks of birds fly way up high
chirping as they pass by,

Emerald green grass waves hello
in the screaming wind,
You can taste candy filling your
mouth,

As trick or treaters run to your
door as fast as cheetah's.
